CONTRACTING OFFICER'S
DETERMINATION AND FINDINGS

AUTHORITY TO USE TIME-AND-MATERIAL TYPE OF CONTRACT

Upon the basis of the following findings and determination which I hereby make as Contracting Officer pursuant to the provisions of Public Law 110, 81st Congress, and authority delegated thereunder, the proposed contract described below may be entered into on a time-and-material basis.

FINDINGS

1. The proposed contract with Eastman Kodak Company, Rochester, New York, is for operation and maintenance of a film processing plant at Rochester, New York.
2. The quantity of film to be processed, the number of shifts to be worked by the contractor in processing the film, and the priorities and deadlines for completing work orders under the contract are not ascertainable in advance of project operations
3. The estimated cost of performing work under the proposed contract cannot be reasonably forecast so as to permit the undertakings on a cost-reimbursible or fixed-price basis.

DETERMINATION

1. It is impracticable to secure the work and services of the kind or quality required without the use of the proposed type of contract.
2. That the use of a time-and-material type of contract is more than likely to be less costly than other methods of contracting.
